Dear Saumya, Madura and Nitya,

Today I have lost my mentor, my friend, my guide. The cereal that I eat everyday that nourishes me has become tasteless . What Shranshanjali can give to a great humble agronomist, agricultural scientist, plant geneticist, administrator and humanitarian ?

Swaminathan ji is a global leader of the green revolution. I mourned when Meena died and had no words to express my grief. Today when I lost my inspiration again I am without words.

My greatest respects & pranamas to the great son of India!

Please accept my humble prayers, my blessings to brilliant daughters of brilliant mother and father.

With blessings to all children,
